INTERNATIONAL DIPLOMA IN OCCUPATIONAL SAFETY AND HEALTH MANAGEMENT

The flagship cross-industry management diploma for senior safety professionals. Master safety culture, management systems, strategic risk, health and well-being, sustainability, ethics and applied research.

Level 7 (equivalence)

6 core units

Assignment-based, no written examinations

480

Hours (TQT)

180

Guided learning hours

6

Core units

100%

Assignment-based

DIPLOMA OVERVIEW

Lead, implement and continuously improve occupational health and safety across any organization.

The International Diploma in Occupational Safety and Health Management is a comprehensive professional qualification for those who manage health and safety at organizational, departmental or site level. It emphasizes strategic thinking, regulatory awareness and evidence-based decision-making rather than procedural or checklist-driven practice.

The program integrates management systems, risk assessment, health and well-being, sustainability, ethics and applied research. It is broader and more strategic than the industry-specific diplomas, and it is the only AISP diploma to include a dedicated Advanced Research Methods unit.

GRADUATE CAPABILITIES

Legislation & standards

Interpret and apply OSH legislation, standards and best practice

Risk strategy

Conduct structured risk assessments and develop proportionate controls

Influence

Communicate performance, risk and improvement strategy to senior management

Management systems

Design, evaluate and improve health and safety management systems

Well-being & ethics

Integrate health, well-being, sustainability and ethics into safety management

Resilience

Support organizational compliance, resilience and continuous improvement

WHO IT'S FOR

HSE directors

Corporate safety leaders

Safety managers

Safety consultants

Operations and HR leaders

International safety professionals

For safety managers moving toward director-level roles, consultants across industries, and leaders taking on safety governance.

AT A GLANCE

480 hrs

Total qualification time

180 hrs

Guided learning

300 hrs

Self-study and research

SIX CORE UNITS

Six units build strategic capability, from safety culture and management system effectiveness through risk intervention, well-being and ethics to independent research.

480

Hours (TQT)

6

Core units

100%

Assignment-based

Each unit: 80 hours total qualification time (30 guided learning + 50 self-study).

UNIT	UNIT TITLE AND CONTENT	HOURS
1003/101	Health and Safety Management Practice Safety culture and climate, leadership, management strategies, risk perception, the moral, legal and financial case for safety, worker participation, and ISO 45001, 9001 and 14001 integration.	80 30 GLH

1003/103	Factors Affecting Risk and Strategic Risk Intervention Risk avoidance, reduction, transfer and retention; control selection; hazard identification and exposure assessment; ALARP tolerability; the hierarchy of controls.	80 30 GLH
1003/104	Strategic Commitment to Health and Well-Being Evaluating health and well-being policy against legal requirements; organization-wide engagement; ISO 45001 and the WHO healthy workplace model; well-being KPIs.	80 30 GLH
1003/105	Sustainability and Ethics in Health and Safety Practice Integrating sustainability and ethics into safety strategy; time-bound improvement plans; monitoring and review; the safety professional's role; balancing commercial pressures.	80 30 GLH
1003/106	Advanced Research Methods Topic selection, aims and objectives, project planning, critical literature review, qualitative and quantitative methods, data collection and analysis, and a written research proposal.	80 30 GLH

DELIVERY MODEL

Structured, assignment-based study built for working professionals, with guided independent study, applied research and workplace-relevant analysis instead of fixed lecture schedules.

Online eLearning

Delivered through the AISP Student Dashboard (LMS)

480 Hours

180 guided learning + 300 self-study

Self-Paced

Study around your work; most learners complete in 6–12 months

Lifetime Access

Your learning resources remain in your Student Dashboard after completion

 **Language:** Instruction and assessment are in English. Professional written English is required.

 **Tutor support:** Qualified tutors with industry and academic expertise provide academic guidance, clarify technical and regulatory expectations and give constructive feedback throughout. A designated assessor supports you at every stage.

STANDARDS AND PROFESSIONAL ALIGNMENT

- ✓ ISO 45001 occupational health and safety management
- ✓ Integrated ISO 9001 and ISO 14001 management systems
- ✓ ALARP-based risk governance and the hierarchy of controls
- ✓ The WHO healthy workplace model
- ✓ Recognized research and evidence-based practice methods

YOUR PATH TO THE DIPLOMA

1

Enroll online

Register and access all six units through your Student Dashboard.

2

Study and submit

Work through each unit and submit a formative and a summative assignment for assessment.

3

Earn your diploma

Pass all six units to receive your diploma certificate, transcript and wallet card.

ASSESSED ON WHAT YOU CAN DO

This diploma is assessed entirely through assignment, with no written examinations. Assignments ask you to evaluate real organizations, from their safety culture and risk frameworks to their well-being and sustainability strategies.

12

Assignments (2 per unit)

26–33k

Words in total

0

Written exams

Pass / Fail

Assessment outcome

**Formative (each unit)**

800–1,000 words: a technical discussion paper, white paper or guidance document, with developmental feedback from your assessor.

**Summative (each unit)**

3,500–4,500 words: a professional report that critically evaluates a real organization (for example its safety management system or risk framework) using structured tools and sets out measurable improvement recommendations.

**Standards & integrity**

Submitted through the student portal and graded by a qualified assessor against a published marking rubric. Work must be properly referenced and is checked for similarity; plagiarism, collusion or contract cheating can lead to disqualification. All assessment decisions are subject to internal quality assurance.

**ENTRY REQUIREMENTS**

- ✓ A management-level safety qualification (such as CHSM, RSM, a NEBOSH Diploma or CSP) is strongly recommended.
- ✓ 3+ years of safety management experience is recommended.
- ✓ Candidates with 5+ years of operational experience may enroll without a formal safety qualification.
- ✓ No academic degree is required.

Professional written English is required, as instruction and assessment are in English.

WHO SHOULD ENROLL

- › HSE directors and corporate safety leaders
- › Safety managers seeking director-level roles
- › Safety consultants across industries
- › HR directors and operations leaders taking on safety governance
- › Professionals building on the CHSM or RSM, or wanting a research-based qualification

WHAT YOU RECEIVE

Sample documents shown ·
personal details redacted

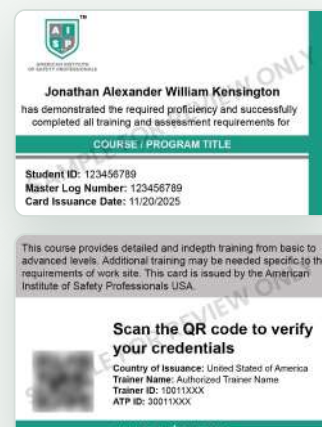

Diploma Certificate

The International Diploma in Occupational Safety and Health Management, issued by American Institute of Safety Professionals LLC, USA, as a digital certificate (PDF) with QR verification. The hardbound option also includes a printed copy, posted to you.

Official Student Transcript

A formal record of all six units completed and the hours achieved.

Wallet Card

A professional wallet card to carry proof of your diploma on the job.

All three documents are verifiable by employers at [amiosp.com/student-verifications](https://www.amiosp.com/student-verifications).

WHERE THIS DIPLOMA FITS

The flagship general diploma at the top of the CHSO → CHSM → RSM pathway. Industry-specific diplomas, such as Industrial Safety Management (1002) and Construction Safety Management (1008), build on it.

ABOUT THE DIPLOMA

Q01

Who is this diploma for?

Senior safety professionals, HSE directors, safety consultants and leaders who carry safety governance responsibilities in any industry.

Q02

How is it different from the Industrial Safety diploma?

This diploma is cross-industry and strategic. The Industrial Safety Management diploma (1002) is for deep technical specialization in industrial and process settings.

Q03

Is this a university degree?

No. It is a professional qualification awarded by the American Institute of Safety Professionals. It does not confer statutory authority, professional licensure or regulatory approval.

STUDY & ASSESSMENT

Q04

How is the diploma delivered?

Fully online through the AISP Student Dashboard (LMS), self-paced, with tutor guidance and a designated assessor.

Q05

How is it assessed?

Through two written assignments per unit (12 in total), graded Pass / Fail against a marking rubric. There are no written examinations.

Q06

How long does it take?

480 hours of total qualification time. Most learners complete the diploma in 6–12 months while working.

ENTRY & AWARD

Q07

Do I need a degree to enroll?

No. A management-level safety qualification and 3+ years of experience are recommended; 5+ years of operational experience may be accepted instead.

Q08

What do I receive?

A diploma certificate, an official transcript and a wallet card, all verifiable at amiosp.com/student-verifications.

Q09

How much does the diploma cost?

Digital and hardbound options are available. See current prices on the [diploma page](#).
