● INTERNATIONAL DIPLOMA

COURSE CODE • 1020

INTERNATIONAL DIPLOMA IN HEALTHCARE ENVIRONMENTAL SERVICES MANAGEMENT

The only AISP diploma focused entirely on healthcare environments. Master EVS governance, infection prevention, cleaning and disinfection technology, healthcare waste, workforce safety and quality assurance.

Level 7 (equivalence)

6 core units

Assignment-based, no written examinations

480

Hours (TQT)

180

Guided learning hours

6

Core units

100%

Assignment-based

DIPLOMA OVERVIEW

Lead environmental services as the clinical function it is, protecting patients, staff and accreditation.

The International Diploma in Healthcare Environmental Services Management develops advanced competence in healthcare environmental services (EVS) leadership, infection prevention support, regulatory compliance and patient safety-critical operations across hospitals, clinics, long-term care and ambulatory surgery centres.

It integrates CDC infection prevention guidance, OSHA requirements, CMS Conditions of Participation and Joint Commission Environment of Care standards, and frames EVS as a function that directly affects healthcare-associated infection (HAI) rates, accreditation and reimbursement.

GRADUATE CAPABILITIES

EVS programs

Design and manage EVS programs aligned with patient safety objectives

Infection prevention

Support infection prevention through effective environmental hygiene

Compliance

Apply CDC, OSHA, CMS and Joint Commission requirements to EVS operations

Disinfection

Manage cleaning, disinfection and validation in clinical environments

Waste & risk

Evaluate chemical, equipment and waste management risks

Performance

Monitor metrics, audits and continuous improvement

WHO IT'S FOR

EVS directors and managers

Infection preventionists

Healthcare facility managers

Healthcare safety officers

Quality improvement professionals

EVS supervisors

For EVS leaders in hospitals, health systems and long-term care, and for supervisors preparing for director roles.

AT A GLANCE

480 hrs

Total qualification time

180 hrs

Guided learning

300 hrs

Self-study and research

SIX CORE UNITS

Six units cover healthcare EVS from governance and infection prevention through disinfection technology and waste management to workforce safety and quality assurance.

480

Hours (TQT)

6

Core units

100%

Assignment-based

Each unit: 80 hours total
qualification time (30 guided
learning + 50 self-study).

UNIT	UNIT TITLE AND CONTENT	HOURS
1020/101	Governance, Regulatory Compliance, and Healthcare EVS Leadership CMS Conditions of Participation; Joint Commission Environment of Care standards; state licensing; OSHA healthcare standards; the EVS director's role in governance and infection prevention committees; budgeting and staff development.	80 30 GLH
1020/102	Infection Prevention, Environmental Hygiene, and Pathogen Control CDC guidance, the OSHA Bloodborne Pathogens Standard and APIC practice; surface transmission of MRSA, VRE, C. difficile and Candida auris; terminal cleaning, OR turnover and isolation rooms; ATP and fluorescent marker verification.	80 30 GLH
1020/103	Healthcare Cleaning Technologies, Disinfection Systems, and Validation Quaternary ammonium, hypochlorite, hydrogen peroxide and peracetic acid; spectrum, contact time and EPA registration; UV-C, hydrogen peroxide vapor and electrostatic systems; validation and statistical sampling.	80 30 GLH
1020/104	Healthcare Waste Management and Environmental Safety OSHA, EPA (RCRA), DOT and state rules; regulated medical, hazardous, pharmaceutical and radioactive waste; segregation and on-site treatment; transport and tracking; sharps, chemotherapy waste and mercury.	80 30 GLH
1020/105	Occupational Health, Ergonomics, and Workforce Safety in Healthcare EVS Bloodborne pathogen and chemical exposure; musculoskeletal injury, slips and falls; shift work, staffing and retention; engineering controls, safe procedures, PPE, vaccination and post-exposure protocols.	80 30 GLH
1020/106	Quality Assurance, Auditing, and Sustainable Healthcare Environments Quality programs aligned with Joint Commission, CMS and Leapfrog; audits; KPIs such as ATP pass rates, HAI rates and HCAHPS; dashboards and corrective action; Safer Choice, Green Seal and sustainable procurement.	80 30 GLH

DELIVERY MODEL

Structured, assignment-based study built for working professionals, with guided independent study, applied research and workplace-relevant analysis instead of fixed lecture schedules.

Online eLearning

Delivered through the AISP Student Dashboard (LMS)

480 Hours

180 guided learning + 300 self-study

Self-Paced

Study around your work; most learners complete in 6–12 months

Lifetime Access

Your learning resources remain in your Student Dashboard after completion

Language: Instruction and assessment are in English. Professional written English is required.

Tutor support: Qualified tutors with industry and academic expertise provide academic guidance, clarify technical and regulatory expectations and give constructive feedback throughout. A designated assessor supports you at every stage.

REGULATORY AND INDUSTRY ALIGNMENT

- ✓ CDC infection prevention and environmental hygiene guidance
- ✓ OSHA requirements, including Bloodborne Pathogens (29 CFR 1910.1030)
- ✓ CMS Conditions of Participation for healthcare facilities
- ✓ Joint Commission Environment of Care and Infection Prevention standards
- ✓ EPA healthcare waste and environmental protection requirements

YOUR PATH TO THE DIPLOMA

1

Enroll online

Register and access all six units through your Student Dashboard.

2

Study and submit

Work through each unit and submit a formative and a summative assignment for assessment.

3

Earn your diploma

Pass all six units to receive your diploma certificate, transcript and wallet card.

ASSESSED ON WHAT YOU CAN DO

This diploma is assessed entirely through assignment, with no written examinations. Assignments apply EVS governance, infection prevention science and regulatory requirements to realistic healthcare facility scenarios.

12

Assignments (2 per unit)

26–33k

Words in total

0

Written exams

Pass / Fail

Assessment outcome

Formative (each unit)

800–1,000 words: a technical discussion paper, white paper or guidance document, with developmental feedback from your assessor.

Summative (each unit)

3,500–4,500 words: a professional report that applies structured analytical tools (such as bow-tie, fault tree, event tree, risk matrices and audit gap matrices) to a realistic workplace scenario and sets out a phased implementation plan.

Standards & integrity

Submitted through the student portal and graded by a qualified assessor against a published marking rubric. Work must be properly referenced and is checked for similarity; plagiarism, collusion or contract cheating can lead to disqualification. All assessment decisions are subject to internal quality assurance.

ENTRY REQUIREMENTS

- ✓ Healthcare facility experience is strongly recommended.
- ✓ No academic degree is required.

Professional written English is required, as instruction and assessment are in English.

WHO SHOULD ENROLL

- › EVS managers in hospitals, health systems and long-term care
- › Infection preventionists
- › Healthcare facility and operations managers
- › Healthcare safety officers and quality improvement professionals
- › EVS supervisors preparing for director roles

WHAT YOU RECEIVE

Sample documents shown ·
personal details redacted

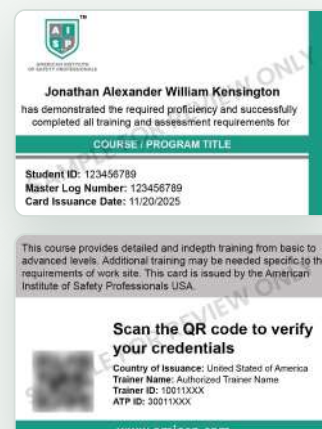

Diploma Certificate

The International Diploma in Healthcare Environmental Services Management, issued by American Institute of Safety Professionals LLC, USA, as a digital certificate (PDF) with QR verification. The hardbound option also includes a printed copy, posted to you.

Official Student Transcript

A formal record of all six units completed and the hours achieved.

Wallet Card

A professional wallet card to carry proof of your diploma on the job.

All three documents are verifiable by employers at amiosp.com/student-verifications.

WHERE THIS DIPLOMA FITS

The healthcare specialist diploma. It pairs well with the Advanced Toxicology diploma (1017) for chemical and biological hazard science, and with the Occupational Health and Safety Management diploma (1003).

THE AISP ADVANTAGE WHY CHOOSE US?

Employer-verifiable worldwide

Every diploma carries a Master Log Number and QR code for instant online verification.

Built for working professionals

Fully online and self-paced, with no exams to sit and no time away from work.

Industry-relevant content

Built around CDC, CMS, Joint Commission and OSHA healthcare requirements.

Expert-developed and quality assured

Developed by subject specialists and governed by internal quality assurance for consistent, fair assessment.

Trusted by employers

A credential employers can check in seconds and recognize for its depth.

WHERE THIS DIPLOMA CAN TAKE YOU

The diploma supports progression into senior healthcare EVS and safety roles, including:

- Director of Environmental Services (hospital / health system)
- Healthcare Environmental Safety Manager
- Infection Prevention Environmental Hygiene Specialist
- Healthcare Facility Safety and Compliance Director
- Healthcare EVS Consultant

For reference, the figures below show published U.S. earnings for occupational health and safety specialists, a related occupation. They are not an indication of earnings after this diploma.

📍 UNITED STATES DATA ONLY

\$93,860

Mean annual wage

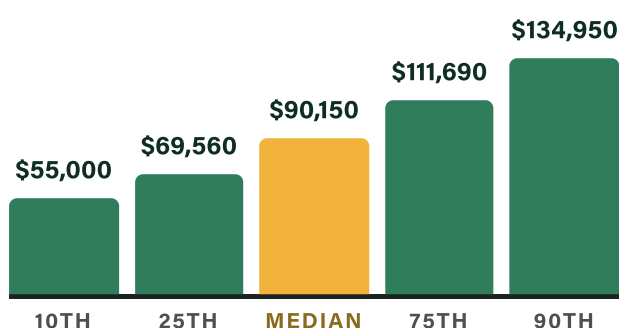

\$90,150

Median annual wage

140,610

Employed nationwide

ABOUT THE DIPLOMA

Q01

Who is this diploma for?

EVS directors and managers, infection preventionists, healthcare facility managers, safety officers and quality professionals.

Q02

How is it different from the OSH Management diploma?

This diploma focuses entirely on healthcare environments. The OSH Management diploma (1003) covers safety management across all industries.

Q03

Is this a university degree?

No. It is a professional qualification awarded by the American Institute of Safety Professionals. It does not confer statutory authority, professional licensure or regulatory approval.

STUDY & ASSESSMENT

Q04

How is the diploma delivered?

Fully online through the AISP Student Dashboard (LMS), self-paced, with tutor guidance and a designated assessor.

Q05

How is it assessed?

Through two written assignments per unit (12 in total), graded Pass / Fail against a marking rubric. There are no written examinations.

Q06

How long does it take?

480 hours of total qualification time. Most learners complete the diploma in 6–12 months while working.

ENTRY & AWARD

Q07

Do I need a degree to enroll?

No. Healthcare facility experience is strongly recommended.

Q08

What do I receive?

A diploma certificate, an official transcript and a wallet card, all verifiable at amiosp.com/student-verifications.

Q09

How much does the diploma cost?

Digital and hardbound options are available. See current prices on the [diploma page](#).
