COURSE OVERVIEW

An essential foundational course that gives professionals and aspiring safety leaders a strong grounding in OSHA and workplace compliance.

OSHA shapes safe, healthy and productive workplaces across every industry. Rather than memorizing rules, participants learn how the Occupational Safety and Health Act, OSHA standards and employer responsibilities connect to real-world risks, along with the rights and protections every worker holds.

The course also covers OSHA inspections and citations, incident reporting and recordkeeping, hazard communication, training requirements, state plans and voluntary programs, and the tools OSHA provides. Graduates are equipped to understand and apply OSHA requirements with confidence.
