COURSE OVERVIEW

An essential course for professionals in healthcare environments where exposure risks demand constant vigilance.

Needlesticks, sharps and contact with blood are daily risks in clinical settings. The course covers the foundations of bloodborne pathogens safety, the exposure control plan and program management, universal precautions and work practice controls, and engineering controls and PPE in healthcare.

Participants also cover hepatitis B vaccination and medical surveillance, post-exposure evaluation and follow-up, and training and worker engagement. Graduates are equipped to prevent exposures and respond correctly when they occur.
