COURSE OVERVIEW

A specialized course for professionals who handle, package and transport hazardous materials, where strict adherence to regulations prevents incidents that endanger people, property and the environment.

You will learn to classify dangerous goods using the UN system of classes, divisions and packing groups, select UN-approved packaging, apply correct marks and labels, placard vehicles, and prepare the shipping papers required for road (DOT 49 CFR), air (IATA DGR) and sea (IMDG Code) transport.

The course also covers loading and segregation, emergency response, function-specific training requirements, security planning and compliance auditing. Completing it shows you are not just moving goods but safeguarding your workforce, the public and the environment.
