COURSE OVERVIEW

A foundational program that gives workers a structured awareness of the safety and health risks found in general industry workplaces.

The program introduces hazard recognition, regulatory awareness and preventive measures for routine industrial operations, facilities and work processes. Scenario-based eLearning covers walking-working surface hazards, electrical risks, hazardous chemicals, fire and emergency conditions and common health exposures.

Aligned at an awareness level with OSHA 29 CFR 1910, the program reinforces personal protection, emergency preparedness and adherence to established safety and health programs. It complements employer orientation and job-specific training and provides a strong foundation for further study.

CORE COMPETENCIES

Understand OSHA basics

Worker rights, employer duties and safety programs

Communicate hazards

Chemical labels, safety data sheets and right-to-know

Prevent slips & falls

Walking-working surfaces and fall protection

Work safely with electricity

Electrical hazard recognition and safe practices

Prepare for emergencies

Action plans, fire prevention and exit routes

Protect your health

PPE and industrial hygiene basics

WHO IT'S FOR

Production workers

Maintenance staff

Warehouse personnel
