COURSE OVERVIEW

A specialized program that prepares participants to deliver structured safety and health training within oil and gas operations.

The program integrates occupational safety training principles with industry-specific hazard knowledge for drilling, well servicing, offshore operations and site logistics. Participants build in-depth understanding of hazard identification, risk management, job hazard analysis, ergonomics, emergency response and life-saving practices relevant to oil and gas environments.

Aligned with OSHA 29 CFR 1910, applicable 1926 provisions and recognized oil and gas practice, the program develops the dual role of the trainer as subject-matter resource and instructional facilitator. Graduates are equipped to communicate safety requirements effectively across upstream and offshore operations.

Self-Paced

Study at your own pace with official reference books, downloadable from the Student Dashboard and yours to keep

Lifetime Access

Your course materials remain available in your Student Dashboard after completion

 **Language:** All course materials, reference books and examinations are delivered in English, Spanish, German and Arabic. Reference books are provided as downloadable PDFs.

FINAL EXAMINATION

1

Score 70% or higher

Complete a timed, open-reference online examination taken through the Student Dashboard, drawn from a structured question bank.

2

Retake if needed

If you do not pass first time, further attempts are available. A short review period applies between attempts so you can revisit the course material.

3

Earn your certificate

A passing score confirms your eligibility for the Certificate of Completion. Once passed, the exam cannot be retaken to improve the score.

ABOUT YOUR CERTIFICATE

Your Certificate of Completion confirms you have completed a structured safety training program informed by OSHA 29 CFR 1910 and 1926. It is not OSHA-authorized training, licensure or regulatory approval, and it complements the site- and task-specific training your employer provides.
