COURSE OVERVIEW

A foundational professional certification that prepares individuals for operational roles in occupational health and safety across construction, manufacturing, logistics and general industry.

The program focuses on practical hazard identification, regulatory awareness and the implementation of workplace safety controls. Participants learn to recognize hazards, conduct job hazard analyses, support safety and health programs and help implement fire prevention and emergency action plans, with emphasis on falls, unsafe work surfaces, ergonomic stressors and the fundamentals of incident investigation.

The CHSO strengthens an officer's ability to support safety management, participate in committee activities, assist with inspections and promote safe work practices at the operational level. Completion demonstrates competence in core occupational safety and health principles and readiness to contribute to hazard control and emergency preparedness.
