COURSE OVERVIEW

A professional certification that develops qualified safety trainers for manufacturing, production, warehousing, logistics and other general industry settings.

General industry presents a wide range of hazards that demand clear, consistent safety guidance. This program equips professionals to translate OSHA standards, risk management principles and industry best practice into practical training on machine guarding, lockout/tagout, chemical safety, electrical hazards, ergonomics and materials handling. Adult learning strategies and interactive teaching methods ensure safe practices are not only taught but adopted on the job.

Graduates are recognized as both competent safety practitioners and professional educators. With an emphasis on real-world application, the certification builds immediately transferable skills that improve compliance, reduce incidents and strengthen safety culture across general industry.
